### DETAILED ACTION

1. This Office Action is responsive to the Amendment filed 7/31/2008.

#### ***Claim Rejections - 35 USC § 101***

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1, 3, 9, 13-14, and 16-18 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 1 is rejected as not falling under one of the statutory classes of invention (process, machine, manufacture or composition of matter). The method claimed by claim 1 cannot be a process because it is not either (1) tied to another statutory class (such as a particular apparatus) or (2) transform underlying subject matter (such as an article or materials) to a different state or thing. Since claim 1 does not transform anything, and does not positively recite any apparatus to which the process is tied, it is rejected as being directed to a non-statutory subject matter.

Claims 3, 9, 13-14, and 16-18 fail to remedy the deficiencies of claim 1 and thus are rejected for the same.

In order to overcome this rejection, the hardware apparatus which performs the method of claim 1 must be explicitly stated in the body of the claim. (I.e. A process for ... comprising: <hardware> performing the steps of: <steps of method>)

The Examiner encourages Applicant to contact the Examiner regarding this rejection so that it can be resolved expeditiously.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL E. KEEFER whose telephone number is (571)270-1591. The examiner can normally be reached on Monday through Friday 9am-5pm.
